

Marketplace for Ride Booking and Last-Mile Delivery that connects ride and delivery businesses with drivers and users in large scale 

Strong \$250M Market Raising **Team** \$500,000 Opportunity

The marketplace for ride-booking and last mile

delivery solution market is tapping into an

immense potential of a \$250 million industry in

UAE

## Ride & Last Mile Delivery Problems Delayed quick deliveries due to inefficiencies in finding gig drivers and getting them to accept the delivery order

we specialize in ride-booking and last-mile

delivery solutions and have an experienced

team to help make it happen

- Limited Access to Delivery Locations, as some areas may be restricted, such as gated communities and apartments, making it difficult for delivery drivers to access them
- → Challenges with Delivery Locations, such as apartments or businesses with multiple entrances, which can be time-consuming to navigate

Inefficient route planning to the customer's doorstep or

delivery point.

## Ride & Last Mile Delivery Solutions Finding reliable gig drivers and assigning them delivery trips in sub-mill seconds is now possible Increased accuracy\* is key to providing a great

customer experience.

location implementation can help to improve customer satisfaction
